Press release

www.aeroportsdeparis.fr website records a substantial increase in visits with more than a million connections in one month

Since its launch, the new version of www.aeroportsdeparis.fr website records a substantial increase in visits. In May, the site exceeded for the first time more than one million visits, a performance confirmed in June with 1,070,000 connections.

The 3 most visited sections are:

- information about arriving and departing flights (real time schedules, arrivals and departures terminals, quick display of all direct flights) for nearly 400 destinations, all airlines included;
- access by public transport;
- car parks: this section attracts more and more visitors thanks to "Parking Premium" reservation service which allows e-booking of parking spaces closest to the terminals and "Parking Vacances", for long term car parking at attractive rates. These services record a 14% and 26% increase in bookings compared with the first half of 2008.

"The new version of the site is a real mine of useful information for our clients arriving at and departing from Paris airports. On the eve of summer departures, the new range of services offered by aeroportsdeparis.fr website helps to save time and to better organize one's trip" declares Pascal Bourgue, Retail, Marketing and Communications Director of Aéroports de Paris.

Two new Aéroports de Paris e-services

Dedicated to passenger information, the new version of www.aeroportsdeparis.fr website now offers a **"guide to connections"** and a **"guide to destinations"** to help passengers prepare for their trip.

The **guide to connecting flights** informs passengers connecting through Paris about the best itinerary between their terminal of arrival and their terminal of departure. It recommends the itinerary/itineraries to follow, the connecting time and the possible cost.

Voyage à Miami

Miami est la destination idéale pour des vacances insolites. Ville des loisirs, des belles plages et de la frime... Voyage au cœur de la Floride.

➔ Visiter Miami

Situé sur la presqu'île de **Miami Beach**, **Arts-Deco District** est le quartier le plus connu de la ville, réputé pour ses nombreuses maisons des années 1930 et ses plages. Plus au sud, **Coconut Grove** est le coin huppé qui fourmille de villas luxueuses. **Little Havana** abrite la communauté cubaine, où se mélangent bars typiques venus tout droit de La Havane et une fabrique de cigares. Au nord, **Miami Design District** accueille de nombreuses galeries d'art. Quant au centre de Miami, riche en **complexes commerciaux géants**, il ravira les amateurs de shopping.

A new ergonomics for an easy access to information

The site has been entirely revamped making browsing easier. The main sections can be visited directly from the home page, hence allowing faster access to the services needed.

A satisfaction survey has just been launched in order to collect more precisely the opinion of Aéroports de Paris website visitors. The results will be published at the end of the summer.
